ABOUT

I specialize in building dynamic front-end web applications using Vue, React, Nuxt.js and Next.js, with strong experience in creating responsive, user-friendly interfaces. In my most recent role at KOVA BUILDER, I collaborated closely with backend teams to implement full-stack solutions, in some projects integrating Laravel (PHP) with Inertia.js and Vue for a smooth front-end and back-end communication. I'm proficient in TypeScript, which I use to build more maintainable and scalable code, and have solid experience with HTML, CSS, and frameworks like Tailwind CSS. Additionally, I've worked with MySQL, SQLite, Node JS on the backend, focusing on creating efficient database structures and managing data flow. I thrive on continuous learning, staying up-to-date with industry trends to ensure the best solutions in every project.

EXPERIENCE

2023 - 2025
  • Frontend Web Developer @ Kova Buider

2022 - 2023
  • Frontend Web Developer Internship @ Skyot.net

SKILLS

JavaScript	Vue	Nuxt
HTML	CSS	Tailwind
PHP Laravel	Inertia JS	React
Next JS	TypeScript	REST API
Node JS	Express	Git
SQL	MongoDB	

EDUCATION

  ◆ Angular. The Complete Guide (2025 Edition)
  ◆ Next.js full-stack React applications
  ◆ Node.js, Express, MongoDB & More: The Complete Bootcamp
  ◆ React - The Complete Guide 2023 (incl. React Router & Redux)
  ◆ Modern JavaScript course
  ◆ Vue - The Complete Guide (incl. Router & Composition API)
  ◆ Web development with HTML, CSS, JavaScript
